

Apptix Announces Hosted Exchange Email Support for Motorola Droid

Leading hosted services provider offers device agnostic Microsoft Outlook sync for all major smartphones

Herndon, VA – November 23, 2009 – Apptix (OSE: APP), the leading provider of hosted [Microsoft Exchange email](#), [Microsoft SharePoint](#), and hosted [VoIP](#) services for businesses worldwide, today announced the availability of hosted Exchange support for the Motorola Droid, Motorola's new Android 2.0-equipped smartphone. Utilizing [ActiveSync](#), Apptix's service allows Droid users to take full advantage of the enterprise-class power of hosted Microsoft Exchange email and collaboration services, making the Droid a more effective business communications tool for companies of any size.

"Resource constrained IT departments today are being asked to support an increasingly mobile workforce that is using an expanding range of smartphones," said James Bond, Apptix's Director of Research & Development. "This is why Apptix is device agnostic in the smartphone wars. No matter what make or operating system our customers are using, we will be able to support their needs for mobile Microsoft communication and collaboration capabilities."

Apptix specializes in providing [hosted Microsoft Exchange email](#), [hosted Microsoft SharePoint](#) document management, [hosted VoIP phone](#) services, and [Web conferencing](#) to businesses worldwide for more than a decade. The company supports Android 2.0, iPhone, Blackberry, Palm, and Windows Mobile smartphone operating systems, providing [mobile Microsoft Outlook](#) email, calendaring and collaboration services for users on these devices.
